

# Felder K700S Panel Saw-

**FELDER**

K700S: guaranteed Felder quality with every cut, regardless of the dimensions.

On Felder's K700S panel saw it's the unique solutions and top class operating comfort that particularly impress. The outrigger table guarantees efficiency and precision even when processing heavy or bulky workpieces. The innovative saw aggregate with precision guiding system for exact angle adjustments, zero point tilt and precise lineal height adjustment is just one of the numerous Felder innovations guaranteeing perfect woodworking results. The new swing-away overhead saw guard offers maximum flexibility and maximum operating safety.

Please note machine images may show optional equipment.

### 'X-Roll' sliding table

The continuously developed linear guiding system from Felder has been astounding woodworkers since 1990. The high quality sliding table guiding technology, 'X-Roll,' offers amazing operating smoothness and is completely maintenance free. The 'x' design of the position of the roller bearings ensures that they move smoothly along hardened guides.

### 'Easy-Glide' system

A highly robust synthetic material located in the guidance track of the tilting brackets ensures they run smoothly, and are maintenance free even under the most extreme conditions. The tilt guide segment runs without lubrication and is insensitive to dust.

### Remote ON switch on sliding table

As a convenient option, your K700S sliding table can come fitted with start buttons for the main and scorer blades.
