

Tormek T8 Wetstone Grinder-

Tormek's new T8 guarantees precision, especially when combined with the new SE77 square edge jig (which is included). The revolutionary fully cast housing ensures minimal play for the Universal support, giving you the best conditions possible to succeed with your sharpening. Tormek's unique drive system is efficient and manages to hold a constant speed, even under full load.

The Tormek original grindstone sharpens all qualities of steel, including HSS. The machine features a number of elaborated details, like instant stone locking with EzyLock, water trough with lift and a removable magnet scraper for efficient cleansing.

Made in Sweden, the Tormek T8 comes with an 8 year warranty*.

Tormek T8 Wetstone Grinder-

Full set of accessories included

As standard the T8 comes with an SG250 wheel and the following accessories:

LA-220 Leather Honing Wheel
SE77 Square Edge Jig
TT50 Truing and Dressing Tool
SP650 Stone Grader
WM200 AngleMaster
PA70 Honing Compound
HB10 Handbook
EM-15 Edge Marker

Fully cast housing

On the new T8 model Tormek has integrated the previous mounted sleeves for the Universal Support into the fully cast housing.

Integrated sleeves for minimal play

The integrated sleeves guarantee minimal play for the Universal Support; an innovation which improves the control of the sharpening and increases the accuracy of the final results.

Overview and features

Just like Tormek's T7 model, the T8 improves the accuracy and safety in edge tool sharpening.

Conventional jigs on the market require that you align the tool in the jig with two mounting screws, which is time consuming, and you lose the exact repeatability at each sharpening. The Tormek Square Edge jig solves this problem and the chisel will be lined up squarely (i.e. at 90 degrees) each time, without any adjustments. This is achieved because the jig automatically aligns the chisel to its flat, machined face.

Another benefit is that the SE77 can also clamp short and tapered tools firmly, e.g. Japanese chisels. The jig copes with blades up to 76mm or 3" width.

The new Square Edge Jig SE77 has safety stops, which prevent the tool from slipping off the stone, which can hurt your fingers.

A further development is the Truing and Dressing Tool TT-50 with screw feed. This enables the user to keep the stone in perfect condition, which is essential for a perfectly sharpened edge.

Tormek T8 Wetstone Grinder-

As standard the T8 comes with an SG250 wheel and the following accessories:

- LA-220 Leather Honing Wheel
- SE77 Square Edge Jig
- TT50 Truing and Dressing Tool
- SP650 Stone Grader
- WM200 AngleMaster
- PA70 Honing Compound
- HB10 Handbook
- EM-15 Edge Marker

Why Tormek?

Sharpen all your edge tools

With the wide range of Tormek patented [jigs](#), you can sharpen practically all types of edge tools. Tormek is dedicated to developing water cooled sharpening through innovative solutions.

Exact replication

The key word when sharpening the Tormek way is repeatability. You can shape the tool exactly to your needs. Even complicated shapes such as fingernail turning gouges, spoon carving gouges and oval skew chisels with a radiused edge are easily sharpened.

Cleanest edges

You finish the sharpening process by honing and polishing the edge on the leather honing wheel. You get a razor sharp edge.

Fast sharpening

Once the shape is created, you remove only a fraction of the steel when re-sharpening, which makes it a quick job.

Full control

At the low speed, you have full control of the sharpening and remove no more steel than necessary. An extra benefit is that your tools last longer.

No risk of overheating

There is no risk that the edge becomes overheated and loses its hardness.

Safe and quiet

Worn steel particles are deposited into the water trough, keeping the air clear of grinding dust. No sparks are produced, avoiding a potential fire hazard in workshops with a lot of wood dust. You will also find that the Tormek runs surprisingly quietly.

Quality and performance

Buying a Tormek is a safe investment in quality and performance with a 7 year warranty. You are assured that all future developments will fit your machine.

Tormek T8 Wetstone Grinder-

The T8 comes with a rock-solid 7 year warranty, including commercial use.

Specifications

Housing	Zinc cast top and frame. Sides in ABS plastic
Grindstone	250 × 50mm
Honing wheel	220 × 31mm
Stone diameter indicator	Yes
Main shaft in stainless steel	Yes
Stone locking	Stainless steel EzyLock
Water trough	With magnet scraper and water chute
Carrying handle	Yes
Quick coupling for the honing wheel	Yes
Motor duty	Continuous
Table size	90rpm
Noise level	Near silent running, 54dB
Weight	14.8 kg

Specifications are subject to change without notice.
