

Felder P200 Edgebander-

FELDER.

Designed for smaller workshops and other 'short run' situations, the P200 works with pre-glued tape and you're underway in just a few minutes.

An economical machine for edges from 0.4mm to 2.0mm, the P200 is solid yet compact, and will fit in any workshop.

Please note machine images may show optional equipment.

Flush and radius trimming unit

Depending on the setting, the protruding edge is trimmed flush to the workpiece with two cutters on the upper and lower edges of the workpiece and the finish is executed either with a 2mm radius or 15 degree bevel cutter. The P200 is equipped with a copying pad.

Pneumatic end trimmer

The end trimmer cuts the protruding edges flush to the workpiece at the beginning and end of the workpiece.

Hot-air Blower

3000 W high performance hot air blower. Variable temperature control 20 - 500 Degree C. Temperature display on the thermometer.

Specifications

Total input power	1.2kW (1.6hp)
Weight	210kg
Tape thickness	0.4 - 2mm
Air pressure	6.5 bar
Minimum workpiece width	90mm
Panel thickness	10 - 45mm
Feed speed	5.5m/min
Working temperature	Variable 20 - 500°C

Specifications are subject to change without notice.
