

Well proven in NZ workshops, Holytek extractors come with quality features and powerful performance, at affordable prices.

With a 3.7kW (5hp) motor and two top and bottom bags, the DC005 is a robust, reliable extractor suitable for use in an industrial setting.

## Overview and features

- Filter bags comply with strict European standards of 5 micron per m<sup>3</sup>
- Steel fans provide durability, easily withstanding impact from small offcuts
- Mobile, easy to move around the workshop
- Powerful and quiet
- Quick and easy assembly
- Replacement bags, clamps and spare parts readily available from Jacks
