

The AF14 is a robust, high quality, mobile European dust extractor for your workshop. With a steel impeller and frame, reliable bag clamping system, and a quality motor from ATB in Austria, the AF14 offers excellent value for money.

The AF14 is provided with a Class-L filter and can be optionally upgraded to a Class-M filter (Class-M is the recommended filtration level when working with wood-dust according to EN 60335-2-69:2012).

# Felder AF14 Extractor-

**FELDER**

## Easy bag change system

Easy to use, traditional metal band clamping of the collection bag.

## Optional Class-M Filters

The optional Class-M filters provide a higher degree of dust filtration for reduced contamination of your workshop. This is an active step towards ensuring the health of you and your workers.

## Optional Class-M Filter Cleaner

The optional Class-M filter cleaner keeps the filter clear of blockages for consistent high airflow results.

## Overview and features

Prod code: 401-255

## Specifications

|                        |                                 |
|------------------------|---------------------------------|
| <b>Motor</b>           | 1.85kW (2.5hp)                  |
| <b>Air flow</b>        | 39m <sup>3</sup> /min (1385CFM) |
| <b>Dust extraction</b> | 140mm                           |
| <b>Collection bag</b>  | 1 x 200L                        |
| <b>Weight</b>          | 47kg                            |
| <b>Air pressure</b>    | 2140Pa                          |
