

The AF14 is a robust, high quality, mobile European dust extractor for your workshop. With a steel impeller and frame, reliable bag clamping system, and a quality motor from ATB in Austria, the AF14 offers excellent value for money.

The AF14 is provided with a Class-L filter and can be optionally upgraded to a Class-M filter (Class-M is the recommended filtration level when working with wood-dust according to EN 60335-2-69:2012).

Easy bag change system

Easy to use, traditional metal band clamping of the collection bag.

Optional Class-M Filters

The optional Class-M filters provide a higher degree of dust filtration for reduced contamination of your workshop. This is an active step towards ensuring the health of you and your workers.

Optional Class-M Filter Cleaner

The optional Class-M filter cleaner keeps the filter clear of blockages for consistent high airflow results.

Overview and features

Prod code: 401-255

Specifications

Motor	1.85kW (2.5hp)
Air flow	39m ³ /min (1385CFM)
Dust extraction	140mm
Collection bag	1 x 200L
Weight	47kg
Air pressure	2140Pa
