

Luna Machinery C3000 Roller Table-

The Luna Roller Conveyors are designed to attach to any machine which may require support for the material to be processed.

The conveyors feature strong rigid design and are supplied with either PVC roller or steel roller depending on the application. They are constructed from roll form steel and feature a painted finish. All conveyors come with the mounting hardware for attaching them securely to your machine.

Simple to install & super durable, the Luna Roller Conveyor systems are ideal for saws, routers, drills, mills or any other situation where permanent support of material is required.

Note: Pictured above is the C3000 at 3 metres, and two support stands (Code: S300). Also available: the C4500 at 4.5 metres, with 13 rollers.
