

Felder S700 Powerfeed Tilt-away Bracket **FELDER.**

The powerfeeder tilt-away bracket clamps onto the F-channel mounts and allows a permanent fixture of the powerfeeder. When the powerfeeder is not in use it is simply swung underneath the working table with gas strut assistance for lifting.

Note: This version suitable for Felder -700 series machine with F-channel coupling brackets from year of manufacture 2007 onwards.

Felder S700 Powerfeed Tilt-away Bracket **FELDER.**

Storage beneath the working table

When not in use the powerfeeder is simply tilting underneath the table for storage. Gas springs assist the user in lifting the powerfeeder back into position for use.
