

Hammer's A3 41 Surface Planer (a.k.a. buzzer) gives sensational results for an unbeatable price.

Details such as the long, solid milled planer table made of cast iron offer precise planing work. Long, heavily ribbed cast iron planer tables give precision and stability.

The 3 knife quick-change, self-setting cutterblock enables planer knife changes in a matter of seconds and produces a finish that will please even the most critical eye.

Please note machine images may show optional equipment.

3 knife quick-change self-setting cutterblock

The 3 knife quick-change, self-setting cutterblock system enables simple and accurate planer knife changes in seconds.

For tear-free results, low noise and twenty times the usable blade life, the A3 4D is also available with a Silent-POWER cutterblock.

Change the blades in record time

Resin-free locking screws and self-setting knives make it possible to change the blade in less than 2 minutes. Time consuming adjustments and purchasing of expensive setting gauges are a thing of the past.

Tiltable planer fence

For planing and bevelling work the planer fence is tiltable from 90° - 45°. The long planer fence profile allows accurate guiding of the workpiece.
