Silent-Power cutterblock as standard

The advantages of Silent-Power at a glance:

- Extremely quiet; noise is reduced by half
- Usable blade life twenty times longer than standard blades
- Larger chip space
- Tear free planing results
- Four-sided blades
- Reduced power consumption

The planer fence

A masterpiece of engineering providing stability, precision and performance. The fence can be tilted with end-stops at 90° to 45°.

Felder's patented planer table adjustment

The patented Felder planer table adjustment system uses prism guidance for the highest level of adjustment precision. With the new ergonomically shaped depth of cut adjustment handle, you can adjust the depth of cut quickly and precisely to any depth up to 5mm. Using the integrated magnifying glass you can view the set depth and achieve exactly the desired results.

Overview and features
