

Tailored to your needs, the A951L is an optimised planer with 2,700 mm planing table. The A951L Felder planer impresses with detailed solutions and a planing table that is without competition in its class.

From the first glance, the large dimensioned and perfectly designed machine table conveys the key characteristics of the latest planer from Felder: power, stability and operating comfort of the highest level. The planing fence is designed to save space and enables the machine to be set up directly next to the workshop wall. The fold away comfort planing guard integrated into the machine chassis offers maximum freedom of movement when planing.

The planer thicknessers from the Felder 900 series have been successful for many years and were developed specifically for intensive use in small and large woodworking companies. They have now been optimised even further to meet the demands of modern professional woodworkers

Please note machine images may show optional equipment.

## Silent-POWER cutterblock

The advantages of Silent-Power at a glance:

- Extremely quiet; noise is reduced by half
- Usable blade life twenty times longer than standard blades
- Larger chip space
- Tear free planing results
- Four-sided blades
- Reduced power consumption

## 2.7m tables for plenty of workpiece support

The highlight of the planers are the heavy, solid, ribbed planing tables with a total length of 2700mm. The length of the infeed planing table alone is an impressive 1800mm and offers a solid support surface for even the biggest of woodworkign challenges.

## Quick adjustment of cutting depth

With the large ergonomically shaped depth of cut handle you can adjust the depth of cut up to 8mm quickly and precisely.

## Overview and features
