

Get outstanding results with Hammer's A3 41D thicknesser.

- Sensational value for money
- Solid cast iron planer tables
- Silent-POWER cutterblock as standard
- Innovative machine technology
- Remarkably user friendly
- Quality and precision that will last many, many years

Please note machine images may show optional equipment.

### Adjust the thicknessing height

The maximum thicknessing height of 225mm permits the processing of large and heavy workpieces. If desired, the optional digital handwheel can be used to adjust the height of the thicknessing table with an accuracy of 1/10 of a millimetre.

### Silent-POWER cutterblock

For tear-free results, low noise and twenty times the usable blade life, Silent-POWER cutterblock offers outstanding value. Also available: a 3 knife quick-change, self-setting cutterblock system enables simple and accurate planer knife changes in seconds.

## Overview and features
