

Gupfo Sponge Rubber Roller 200mm-

Standard roller for white glues, paste, and other glues which can be thinned with water.

We recommend purchasing a second sponge rubber roller so that one can be being washed and dried at any time. Pull the roller off the shaft, put the roller with the opening over a tap; press together firmly and hold the bottom end of the roller together. The glue in the roller is pushed out by the water pressure (approx. 2 mins), leave to dry for 24 hours.

Item Code: SPONGE200
