

# Virutex Biscuits No. 20-

A box of 1000 No. 20 Virutex Biscuits

Wooden assembly splines specifically for joints, providing a stronger alternative to dowels or blocks.

Manufactured in Spain to a consistent thickness and clean cut from beech timber for excellent tensile strength.

- #20 sized biscuits measure in at 56 x 23 x 4 mm. Slot depth 12 mm.
- Wood origin: FSC-certified beech wood.
- Diagonal fibre orientation gives optimal stability and excellent breaking strength.
- Grid surface designed to allow uniform glue allocation
- Raised glue rails allows tight fit into the groove and at the same time leave space for glue.
- Expands on contact with water-based glues for maximum reinforcement
- Maximize joint strength and squareness in lumber, plywood, composite board, and more.

PEFC certified - an environmentally friendly wood product.
