

Virutex AG98R Manual Edgebander-

A simple, portable edgebander for banding pre-glued PVC, polyester, melamine and veneer tapes.

The AG98R is particularly handy for banding circular or shaped pieces. Set up time is less than one minute and there are two tape feeding systems:

- Holder for tape rolls up to 1mm thickness and 50mm width.
- Manual feeding for pre-cut strips up to 3mm thickness and 25mm width.
- Practical end trimming system

It's also possible to edgeband flush with panel surface, or with excess on either or both sides.

Virutex AG98R Manual Edgebander-

Simple to use

Placement of the pre-cut strip is easy.

Stable and precise

You can band straight, circular or shaped workpieces.

For pre-cut strips from 3mm thick to 25mm wide

Manual feeding for banding pre-cut strips up to 3mm thickness and 25mm width with high precision and stability.
