Hammer N2-38 Bandsaw-

High cutting height

The cutting height required can be set simply using a gear rack. With a 310 mm cutting height the Hammer convinces in its class and enables the production of solid wood veneers and much more.

Bandsaw blade guides

The band saw is equipped with upper and lower table guides with finely adjustable side and rear rollers and lockable setting screws.

Solid, tiltable cast iron machine table

The solid cast iron table tilts from –5° to +45° extending the scope of use to cover a wide range of processing situations. The exact 90° position of the table is guaranteed by a fine adjustable stop. The tilt of the table can be set using the scale adjustment accurate to one degree.
