

# Mayer Advanced Line 130-

**MAYER**  
MEMBER OF FELDEX GROUP

The experienced - Tailored exactly to customer needs.

Each market and customer has his own special demands when it comes to panel cutting. According to these requirements, the advanced line 130 combines the extraordinary with the useful. Thanks to the solid construction and the powerful saw carriage, cutting forces are removed vibration free period. With the efficient saw motor, the advanced line 130 cuts accurately and with high quality results any aluminium, non-ferrous metals, and plastics up to 130 mm.

## Double pressure beam with laser measurement

The split pressure beam facilitates minimum trimming cuts (chip or scratch cuts) regardless of the programmed board dimension. This guarantees optimal material utilisation with perfect dust extraction

## Universal roller tables

Power-saving transportation of heavy panels for highly productive one-man operation is possible thanks to the universal roller tables that are moved on linear guides

## Pneumatically liftable table segments

Thanks to the pneumatic liftable table segments, heavy panels can be moved easily and without damage

## Specifications

<b>Motor</b>	24 kW
<b>Saw blade Ø</b>	500mm
<b>Cutting capacity</b>	3200mm, 4200mm
<b>Feed speed</b>	0.2-60 m/min
<b>Maximum cutting height</b>	142mm

Specifications are subject to change without notice.
