The advanced line 200 - The compact beam saw for maximum load and extraordinary challenges.

The heavy machine body and the 43 kW saw motor guarantee a high cutting performance with excellent cutting quality even under heaviest load. Equipped with all features an exceptional beam saw requires, the Advanced Line 200 is as strong as a bear in the cutting aluminium, non-ferrous metals, and plastics.

## Double pressure beam with laser measurement

The split pressure beam facilitates minimum trimming cuts (chip or scratch cuts) regardless of the programmed board dimension. This guarantees optimal material utilisation with perfect dust extraction

## Universal roller tables

Power-saving transportation of heavy panels for highly productive one-man operation is possible thanks to the universal roller tables that are moved on linear guides

## Pneumatically liftable table segments

Thanks to the pneumatic liftable table segments, heavy panels can be moved easily and without being damaged

## Specifications

<b>Motor</b>	43 kW
<b>Saw blade Ø</b>	670mm
<b>Cutting capacity</b>	3200mm, 4200mm (& custom cutting lengths)
<b>Feed speed</b>	0.2-60 m/min
<b>Maximum cutting height</b>	215mm

Specifications are subject to change without notice.
