Ascent Machinery SA250ST Sliding Table Saw-

Anodised sliding table

Large ribbed anodised aluminium sliding table running on upper and lower steel bars spread widely for stability. Solid aluminium crosscut fence with eccentric clamp; swivels +/-45°.

Note that the saw guard with dust take-off rises, falls and tilts with the riving knife, meeting NZ safety rules.

Full steel bracing

The full steel base braces much better than the splayed leg system.

Dust take-offs from base and hood - and internally ducted for efficient dust removal. Open toe space enables easy sweeping underneath.

Crosscut fence

Crosscut fence extends to 1.5m. Clear scale for easy reading. Solid steel flip-stop with micro-adjustment.

Specifications

Motor	2.2kW (3hp) with 15amp plug
Table size	900mm wide x 800mm deep
