

KDT KS-132C Panel Saw-

The KDT KS-132C is a tough, no-nonsense panel saw designed to handle the rigours of daily use in a busy workshop.

With its solid build and powerful motor, it's ideal as a first panel saw, or as a workhorse to support your CNC operation.

- Heavy-Duty with 3200mm sliding table
- 900kg solid construction
- Plenty of power with 7.5HP Main Motor for cutting a wide range of panel materials with ease.
- Main and scoring blade units - ideal for clean cuts on melamine and veneered board.
- Reliable Manual Adjustments with automatic rise & fall of the sawblade.

KDT KS-132C Panel Saw-

Heavy and Precise Saw Unit

The complete saw unit is mounted on both sides directly to the machine frame - not suspended from the cast iron table. This provides an incredibly stable platform for the saw unit.

Smooth Sliding Table Movement

The aluminium sliding table glides on two hardened chrome bars, with large "dumbbell" rollers between the base and table for smooth and precise movement. 12 sub-rollers pull the table down onto the base while front and rear brushes sweep the chrome bars clear of dust and chips as the table moves. This system guarantees a light, easy and accurate sliding table movement even under heavy loads.

Rip Fence

The large 1000 x 650 mm cast main table and 430 mm wide sliding table are paired with a strongly ribbed, full-size rip table for enhanced stability and precision. • Rip capacity 1250mm • Convenient push stick holder located directly on the rip fence knuckle

Specifications

Motor	5.5kW (7.5hp) 3 phase
Weight	900kg
Max. saw blade Ø	350mm
Max. cutting height @ 90°	100mm
Saw blade speed	4000/5000rpm
Working height	850mm
Sliding table length	3200mm
Crosscut fence length	3200mm
Outrigger table size	1880mm
Rip capacity	1250mm

Specifications are subject to change without notice.
