

GMC KGS 400M Wall Saw-

Cut panels with repeatable accuracy and complete ease with a GMC Wall Saw, an excellent balance of European quality at an affordable price.

The small footprint means your valuable workshop space is well utilised. With all probability a GMC Wall Saw will represent the most profitable few square metres in your workshop.

- Industrial specification for heavier duty production
- Rigid welded monobolic steel structure
- Saw unit covered in sound dampening material
- Top fence is hardened and tempered ground steel
- Optional ACM grooving accesory available
- Easy to use - move the saw not the sheet
- Intermediate measurements, fence & stops for small workpieces
- Bottom rollers for sliding panels into place
