

Tormek LA145 Leather Honing Wheel-

The LA145 is a leather honing wheel which gently removes the burr created while grinding as well as polishing the edge to give a sharper and more durable finish.

The leather on the LA145 Leather Honing Wheel is provided by the tannery Tärnsjö Garveri in Sweden who have tanned and processed leather for over 140 years and is today one of the few tanneries that completely tans their leather with natural products. The leather on the LA-145 Leather Honing Wheel is both eco-friendly and of the highest quality.

The LA145 is suitable for the Tormek T4, T3 and Supergrind 1200 models.
