Tormek HTK806 Hand Tool Kit-

Tormek Case TC800

The Tormek Case keeps your jigs and accessories organised and is easy to carry thanks to the premium leather handle. The case is made of high-quality material with a sliding lid that keeps everything in place.

Storage Tray for Hand Tool Kit HTK00

The HTK00 Storage Tray stores all the jigs included with the Hand Tool Kit. The storage tray has an improved design and is customised to fit in the Tormek Case TC800 and the Sharpening Station TS740.

Knife Jig KJ45

Tormek's patented KJ-45 Centering Knife Jig, you'll get symmetrical bevels with the same angle on both sides of the knife, regardless of the thickness or geometry of the blade.

Whether you're sharpening a regular kitchen knife or a thicker, tapered hunting knife, you'll get the same results on both bevels of the knife without needing to reset the jig. The KJ-45 Centering Knife Jig fits most types of knives: household knives, chef's knives, craft knives and knives for hunting and fishing. It also works for the woodcarver's straight drawknives and the gardener's pruning shears.
