# Tormek T4 Wetstone Grinder-

The T4 is a high quality machine wetstone sharpening system ideal for home and hobby work. The key word when sharpening the Tormek way is repeatability. The tools are guided in jigs - you remove only a minute fraction of the steel at each sharpening, which makes it fast. An extra benefit is that your tools last longer.

The T4 is an enhancement of Tormek's best-selling T3 model, taking the precision and stability to a completely new level. Vital functions like the motor and the main shaft are mounted in the zinc cast top which includes the integrated sleeves for the Universal Support. This advanced design ensures an unbeatable precision for the Universal Support, which is the foundation of the Tormek jig system.

You get a high quality machine, ideal for home and hobby work, which can sharpen all the common edge tools. Delivered with the Stone Grader SP650, AngleMaster WM200, Honing Compound, DVD and the comprehensive Tormek Handbook on sharpening. Configure the T4 with your choice of jigs, according to the tools that you are choosing to sharpen.

Made in Sweden, the Tormek T4 comes with an 8 year warranty for personal use and 2 years for commercial use\*.

## Easy storage for the AngleMaster

The machine plate is now made of metal, which makes it a convenient place to store the Tormek AngleMaster (which has magnetic feet).

## Integration between motor and main shaft

Vital parts like the motor and the main shaft are integrated with the zinc cast top.

## The essentials as standard

Delivered with the Stone Grader SP650, AngleMaster WM200, Honing Compound, DVD and the comprehensive Tormek Handbook on sharpening. Configure the T4 with your choice of jigs, according to the tools that you are choosing to sharpen. The jigs are sold separately.

## Overview and features

The Tormek T-4 Original comes with:

- SG-200 Original Grindstone with adjustable sharpening properties,
- LA-145 Leather Honing Wheel for deburring and polishing the bevel,
- US-103 Universal Support for precision sharpening,
- SP-650 Stone Grader to adjust the grit of your grindstone,
- WM-200 AngleMaster to measure the sharpening angle,
- PA-70 Honing Compound which is used on the leather honing wheel,
- EM-15 Edge Marker for coloring the bevel when setting the sharpening angle,
- HB-10 Tormek Handbook comes in different language versions depending on the market.

Complement your Tormek T-4 Original with a selection of [jigs](#) for the tools you'll be sharpening (sold separately).

## Why Tormek?

- **Sharpen all your edge tools**

With the wide range of Tormek patented jigs, you can sharpen practically all types of edge tools. Tormek is dedicated to developing water cooled sharpening through innovative solutions.

- **Exact replication**

The key word when sharpening the Tormek way is repeatability. You can shape the tool exactly to your needs. Even complicated shapes such as fingernail turning gouges, spoon carving gouges and oval skew chisels with a radiused edge are easily sharpened.

- **Cleanest edges**

You finish the sharpening process by honing and polishing the edge on the leather honing wheel. You get a razor sharp edge.

- **Fast sharpening**

Once the shape is created, you remove only a fraction of the steel when re-sharpening, which makes it a quick job.

- **Full control**

At the low speed, you have full control of the sharpening and remove no more steel than necessary. An extra benefit is that your tools last longer.

- **No risk of overheating**

There is no risk that the edge becomes overheated and loses its hardness.

- **Safe and quiet**

Worn steel particles are deposited into the water trough, keeping the air clear of grinding dust. No sparks are produced, avoiding a potential fire hazard in workshops with a lot of wood dust. You will also find that the Tormek runs surprisingly quietly.

- **Quality and performance**

Buying a Tormek is a safe investment in quality and performance with a 7 year warranty. You are assured that all future developments will fit your machine.

\*When used for commercial, industrial or educational purpose, the T4 warranty is 2 years.
