

Yilmaz Semi Auto Backcut Saw SC 550P (secondhand)

Please be aware that all secondhand machinery is sold on an 'as is' basis. As per the **Health and Safety at Work Act 2015, s 42(7)**, 'as is' means "the plant is sold without any representations or warranties about its quality, durability, or fitness, and with the entire risk in those respects to be borne by the buyer".

This machine is in good condition with very little usage.

The SC550P Auto Back-Cut Saw features a large 550mm circular saw blade which can tilt both left and right from 90 over to 22.5 degrees. This large blade capacity is ideal for cutting large stacker frame extrusions safely and accurately.

The SC550P features an easy set angle system. The operator simply pushes one of three buttons conveniently located on the control panel to select a dedicated angle of +45°, 90°, -45°.

Clamps are standard as is the automatic safety guard and two-hand safety operation.
