JACKSTECH 2026 - THAT'S A WRAP

A fantastic turnout! We would like to thank all our customers who took the time to come and visit us at JacksTech.

Once again the Jacks showroom was buzzing with interest and excitement as we welcomed visitors to JacksTech 2026. Alongside a wide selection of machinery on display, the event brought together an impressive line-up of industry experts, creating a lively and informative atmosphere.

JacksTech 26 showcased cutting-edge technology through hands-on demonstrations, giving the industry a valuable opportunity to experience the latest machinery innovations while connecting with peers, suppliers, and specialists.

A particular highlight was the MesEdge robot, which demonstrated the possibilities of modern automation solutions in action. Having Yansong from MesEdge China onsite gave customers an expert look into the huge automation opportunities available today. Our robot demonstration - showcasing impressive handling capabilities - was an absolute crowd favourite.

Beyond handling, the robot highlighted just a fraction of the end-to-end automation

IN REVIEW

packages we now offer, spanning everything from loading and labelling through to stacking.

We also showcased our latest CNC and Edgebanding solutions, and Mark from IES was on hand sharing expert advice on dust extraction systems and setups.

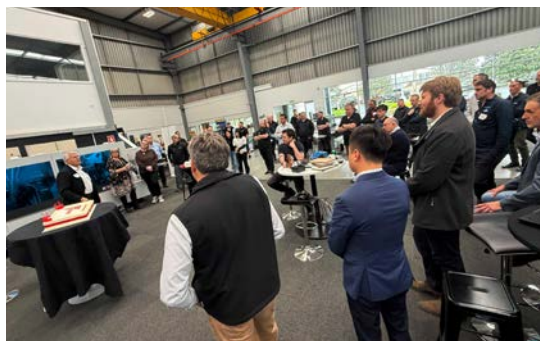

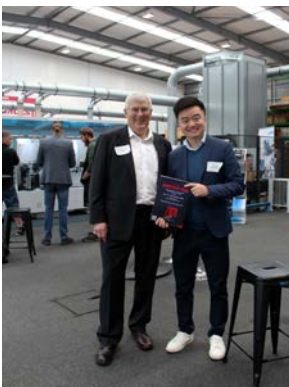

Thank you to everyone who stopped by to chat. We're already looking forward to the next Jack'sTech show - stay tuned to see what next year brings!

CELEBRATING 80 YEARS OF JACKS!

During the show we celebrated Jack's 80th anniversary, with Robin Jack cutting the cake.

While much has changed over the decades, our commitment to our customers and industry remains as strong as ever. We're grateful for the people and relationships behind our story and excited for what's ahead.
